See attached maps. Bids will be received by the Virginia Department of Forestry, Attention: Administrative Staff Assistant, 751 Oak Hill Road, Cumberland, VA 23040, until 10:00 a.m., Wednesday, January 16, 2019, at which time all bids will be opened.

The timber sale area contains approximately 77.7 acres of **SFI and ATFS certified wood**, consisting of pine and hardwood timber. All sawtimber and standing pulpwood (including topwood) is estimated and scheduled for harvest cutting under this contract. The timber sale boundary is marked with blue paint stripes. #### WITNESSETH THAT:

#### ARTICLE I

- (1) The Department agrees to sell and the Purchaser agrees to buy all the standing sawtimber and pulpwood on an estimated 77.7 acre tract of **SFI and ATFS certified wood** designated for harvest. All sawtimber and pulpwood have been estimated (prism cruise) and is offered for sale. ALL MERCHANTABLE TIMBER IS SCHEDULED FOR CUTTING UNDER THIS CONTRACT. There are two sale areas, located on Routes 612 and 640. See attached maps and consult a Virginia Highway map. The volume is estimated to be approximately **733,840** board feet of sawtimber (International 1/4" Rule) and **2,366** short tons (2000 lbs.) of pulpwood. The volumes are only estimates and not guaranteed. Each bidder is urged to use their own cruise data to compute bids. The timber sold consists of pine and hardwood timber. Sale boundaries have been marked with blue paint where boundaries are not on road frontage.
- (2) The Department guarantees the title to said timber and to defend it against any and all claims for taxes, mortgages or other legitimate encumbrances at its own expense. However, title to all forest products shall remain with the Department until payment has been made in full.
- (3) The Department hereby expressly grants to the Purchaser the right of ingress and egress across and upon the sale area.

#### ARTICLE II

- (1) The Purchaser agrees to pay the Department the sum of (\$ FULL AMOUNT) dollars (\$ \_\_\_\_\_) for all the timber sold hereunder. The full payment is due and payable within ten (10) days from the date hereof. No timber shall be cut, nor shall this contract be deemed to be in effect, until payment has been made in full.

#### ARTICLE III

- (1) Timber harvested hereunder shall be felled, skidded and concentrated in such manner as to cause the least possible waste and a minimum of damage to designated crop trees, streams, creeks, springs and soils.
  - (a) Stumps shall be cut in such manner as to cause the least possible waste and not higher than 10 inches above ground level, except on misshapen or defective trees where cutting below 10 inches is not practical.
  - (b) All trees sold hereunder shall be utilized as low in diameter in the tops as may be practical.

- (c) All merchantable trees will be cut (unless otherwise designated).
  - (d) Dead Trees (Snags) marked with a band of pink paint are to be left standing and uncut.

  - (f) No trees, laps or logging debris will be left in streams, creeks or springs.
  - (g) The Purchaser and the Department shall mutually lay out the designated system of skidding trails over which the timber sold hereunder shall be removed and all skidding activities will be confined to these trails.
  - (h) The Department and the Purchaser shall mutually agree to suspend logging activities during such time as these activities would result in detrimental consequences to forest soils during prolonged periods of inclement weather.
- (2) Timber harvested by the Purchaser from standing trees shall be removed in such a manner as to cause the least possible damage to the existing main haul roads and no public hazard at entrance ways to primary and secondary Virginia highways.
- (a) Access to the sale area is adequate and main hauls will be confined to this system for all men, materials and logging equipment including transport trucks necessary for the removal of said timber; the right to designate or approve the location of any new road across State Forest land is specifically reserved.

  - (d) During and upon completion of the harvest operation, the Purchaser shall comply with the Water Quality and BMP standards listed in the "Virginia's Forestry Best Management Practices for Water Quality, Fifth Edition" issued by the Virginia Department of Forestry. The Department reserves specifically the right to request corrective action of the Purchaser in maintenance and stabilization of forest roads, trails, culvert pipes, water bars, side ditches, lead-off ditches, decks, skid trails and streams where destructive action of the Purchaser has contributed to a BMP or Water Quality problem.
  - (e) *The purchaser shall comply with all Virginia Department of Transportation regulations and obtain all required permits for temporary logging entrances.* The Purchaser shall guard against the unnecessary transfer of mud and debris by vehicle onto the public highway system of the Commonwealth of Virginia, whereby the same poses a threat to public safety. Furthermore, the Purchaser assumes the responsibility for the preventive and/or corrective action necessary to eliminate this source of hazard should the problem develop.
  - (f) The Purchaser will assume the responsibility for stabilizing against erosion on used forest roads and trails according to the Water Quality BMP Handbook.
- (3) The location of any landings, logging deck areas and stream crossings will be approved by the Department prior to development.
- (a) The Purchaser and the Department shall mutually lay out decking location and size of the decking area. Excessive scalping of the decking area is not permitted. The threshold for the term "excessive" will be determined by the acting forest manager.

- (4) The Purchaser agrees to exercise the utmost care and caution to prevent the inception and spread of forest fires on the area for sale and on adjoining areas. The Purchaser further agrees to observe and comply with all the forest fire laws of the State of Virginia which may be applicable. The Purchaser will be held liable for costs associated with controlling any fire caused by the harvest operation or for fire damage to residual trees and adjacent forest stands.
- (5) All logging operators on State Forest lands must be trained and certified under their respective state's professional logger program, such as Virginia's SHARP Logger Program.

#### **ARTICLE IV**

- (1) The Department reserves the right to postpone timber removal under terms of this contract for gross noncompliance with the agreed upon provisions herein, to the extent, however, that in case of dispute over the terms of this agreement, the Department and the Purchaser agree to accept the decision of an arbitration board of three selected persons. Each of the contracting persons will select one person and the two selected will select a third to form this board. In the event a satisfactory decision is not reached, appeal to the local Circuit Court is available.

Further, no person shall demand or receive any payment, loan subscription, advance, deposit of money, services or anything of value in return for an agreement not to compete on a public contract.
