August 2019

Pine Mats

Pine Corduroy

Hardwood Mats

- ◆ Use the appropriate seed mixture based on the season of the harvest.
- ◆ Mulch should cover all bare soil and be applied at a rate of approximately two (2) tons per acre.
- ◆ Successful seed and mulch application means vegetation is established.
- ◆ Consult your local VDOF representative for help with proper seed mixtures and amounts.

- ◆ Proper brush mats can use pine or hardwood.
- ◆ Brush matting should be completed during the harvest if possible
- ◆ Brush mats may eliminate the need for extra BMPs after the harvest is completed
