### **§ 10.1-1140.1. Defense of forest wardens.**

If any commissioned forest warden appointed by the State Forester is brought before any regulatory body, summoned before any grand jury, arrested, indicted or otherwise prosecuted on any criminal charge arising out of any act committed in the discharge of his official duties, the State Forester may employ special counsel approved by the Attorney General to defend the forest warden. Upon a finding that the forest warden did not violate a law or regulation resulting from the act which was subject of the investigation, the State Forester shall pay the special counsel legal fees and expenses subject to the approval of the Attorney General. The payment shall be made

from funds appropriated for the administration of the Department of Forestry.

(1992, c. 113.)

### **§ 10.1-1141. Liability and recovery of cost of fighting forest fires.**

The State Forester in the name of the Commonwealth shall collect the costs of fire fighting performed under the direction of a forest warden in accordance with § 10.1-1139 from any person who, negligently or intentionally without using reasonable care and precaution starts a fire or who negligently or intentionally fails to prevent its escape, which fire burns on any forestland, brushland, grassland or wasteland. Such person shall be liable for the full amount of all expenses incurred by the Commonwealth, for fighting or extinguishing such fire. All expenses collected shall be credited to the Forestry Operations Fund. It shall be the duty of the Commonwealth's attorneys to institute and prosecute proper proceedings under this section, at the instance of the State Forester.

The State Forester may institute an action and recover from either one or both parents of any minor, living with such parents or either of them, the cost of forest fire suppression suffered by reason of the willful or malicious destruction of, or damage to, public or private property by such minor. No more than \$750 may be recovered from such parents or either of them as a result of any forest fire incident or occurrence on which such action is based.

(1950, §§ 10-58, 10-61; 1964, c. 79; 1986, c. 188; 1988, c. 891.)

**§ 10.1-1142. Regulating the burning of woods, brush, etc.; penalties.**

- A. It shall be unlawful for any owner or lessee of land to set fire to, or to procure another to set fire to, any woods, brush, logs, leaves, grass, debris, or other inflammable material upon such land unless he previously has taken all reasonable care and precaution, by having cut and piled the same or carefully cleared around the same, to prevent the spread of such fire to lands other than those owned or leased by him. It shall also be unlawful for any employee of any such owner or lessee of land to set fire to or to procure another to set fire to any woods, brush, logs, leaves, grass, debris, or other inflammable material, upon such land unless he has taken similar precautions to prevent the spread of such fire to any other land.
- B. Except as provided in subsection C, during the period February 15 through April 30 of each year, even though the precautions required by the foregoing subsection have been taken, it shall be unlawful, in any county or city or portion thereof organized for forest fire control under the direction of the State Forester, for any person to set fire to, or to procure another to set fire to, any brush, leaves, grass, debris or field containing dry grass or other inflammable material capable of spreading fire, located in or within 300 feet of any woodland, brushland, or field containing dry grass or other inflammable material, except between the hours of 4:00 p.m. and 12:00 midnight.

The provisions of this subsection shall not apply to any fires which may be set to prevent damage to orchards

or vineyards by frost or freezing temperatures or be set on federal lands.

- C. Subsection B shall not apply to any fire set between February 15 and April 30 of each year, if:
1. The fire is set for "prescribed burning" that is conducted in accordance with a "prescription" and managed by a "certified prescribed burn manager" as those terms are defined in § 10.1-1150.1;
  2. The burn is conducted in accordance with § 10.1-1150.4;
  3. The State Forester has, prior to February 1, approved the prescription for the burn; and
  4. The burn is being conducted for one of the following purposes: (i) control of exotic and invasive plant species that cannot be accomplished at other times of the year; (ii) wildlife habitat establishment and maintenance that cannot be accomplished at other times of the year; or (iii) management necessary for natural heritage resources.

The State Forester may on the day of any burn planned to be conducted pursuant to this subsection revoke his approval of the prescription for the burn if hazardous fire conditions exist. The State Forester may revoke the certification of any certified prescribed burn manager who violates any provision of this subsection.

- D. Any person who builds a fire in the open air, or uses a fire built by another in the open air, within 150 feet of any woodland, brushland or field containing dry grass or other inflammable material, shall totally extinguish

the fire before leaving the area and shall not leave the fire unattended.

- E. Any person violating any provisions of this section shall be guilty of a Class 3 misdemeanor for each separate offense. If any forest fire originates as a result of the violation by any person of any provision of this section, such person shall, in addition to the above penalty, be liable to the Commonwealth for the full amount of all expenses incurred by the Commonwealth in suppressing such fire. Such amounts shall be recoverable by action brought by the State Forester in the name of the Commonwealth on behalf of the Commonwealth and credited to the Forestry Operations Fund.

(1950, §§ 10-62, 10-63; 1964, c. 79; 1986, c. 188; 1988, c. 891; 1996, cc. 74, 1008; 2001, c. 319.)

### **§ 10.1-1143. Throwing inflammable objects from vehicle on highway while in or near certain lands.**

It shall be unlawful for any person to throw, toss or drop from a vehicle moving or standing on a highway any lighted smoking material, lighted match, lighted material of any nature, or any bomb or device liable to set fire to inflammable material on the ground while in or near any forestland, brushland or field containing inflammable vegetation or trash.

Any person violating the provisions of this section shall be guilty of a Class 2 misdemeanor for each separate offense.

(1954, c. 35, § 10-64.1; 1986, c. 188; 1988, c. 891.)

Any individual, firm, or corporation responsible for the operation of a saw mill, stave mill, heading mill, or any other mill in, through or near forest or brushland shall clean the premises for at least a distance of fifty yards in all directions from any fires maintained in or about, or in connection with the operation of such mill. The premises shall also be cleaned for a distance of 100 feet in all directions from any sawdust pile, slab pile, or any other inflammable material which accumulates from the operation of such mill, or all matter not essential to the operation of such mill, which is liable to take fire from any sparks emitted from such fires. When any mill is removed or ceases to operate for a period of ten consecutive days, any fire which may be burning in any sawdust pile, slab pile or other debris shall be totally extinguished unless the owner of the land on which such fire is located assumes in writing responsibility for the control of the fire. Any person, firm or corporation violating any of the provisions of this section shall be guilty of a Class 4 misdemeanor. Each day or fraction thereof on which any such mill is operated in violation of the provisions of this section and each day or fraction thereof on which fire is allowed to burn in any sawdust pile, slab pile or other inflammable debris in violation of the provisions of this section, shall be deemed a separate offense.

Whenever it is established that a forest fire originated from a fire maintained in or about any such mill, the individual, firm, or corporation, from whose mill any such fire originated shall immediately become liable for all costs incurred in fighting such fire.

(1950, § 10-64; 1986, c. 188; 1988, c. 891.)

### **§ 10.1-1145. Failure to properly maintain logging equipment and railroad locomotives.**

Logging equipment and railroad locomotives operated in, through, or near forestland, brushland or fields containing dry grass or other inflammable material shall be equipped with appliances and maintained to prevent, as far as may be possible, the escape of fire and sparks from the smokestacks. Any person failing to comply with these requirements shall be guilty of a Class 4 misdemeanor for each offense committed.

(1950, § 10-65; 1986, c. 188; 1988, c. 891.)

### **§ 10.1-1147. Removal of inflammable material from lands adjoining right-of-way by railroads.**

For the purpose of providing increased protection to forest property from fire originating along railroads, any railroad company shall have the right, subject to the provisions of this section, without liability for trespass to enter upon forest or brushlands for a distance of fifty feet from the railroad right-of-way and to clear from such a strip any inflammable material such as leaves, grass, dead trees, slash and brush, but shall not remove any valuable timber growth or other things of value without consent of and recompense to the owner. Not less than fifteen days prior to clearing such land, the railroad company shall give the owner notice of its intention, together with a transcript of this section, by letter deposited in the United States mail to his last known address. If the owner does not file objections to such clearings with the State Corporation Commission within

ten days of the date of such notice he shall be deemed to have given consent. Upon the filing by an owner of such objection showing cause why such clearing should not be done the State Corporation Commission shall review the case and may sustain the objection of the owner or permit the clearing in whole or in part.

The State Corporation Commission may require assistance of the State Forester in furnishing information pertinent to the administration of this section.

The provisions of this section shall not apply to temporary tram roads used for hauling logs and lumber.

(1950, § 10-66; 1988, c. 891.)

It shall be unlawful when the forestlands, brushlands and fields in this Commonwealth or any part thereof have become so dry as to create a serious fire hazard endangering lives and property, for any persons to do any open burning nearer than 300 feet from any such forestlands, brushlands or fields containing dry grass or other flammable material.

This article shall not be effective until the Governor, upon recommendation of the State Forester, proclaims such a condition to exist in this Commonwealth or any part thereof, and it shall be in effect until the Governor proclaims such condition to have terminated.

Upon proclamation of the Governor, it shall be unlawful, when the forestlands, brushlands and fields in the Commonwealth or any part thereof have become so dry as to create an extraordinary fire hazard endangering lives and property, for any person, except the owner, tenant or owner's authorized agent, persons regularly engaged in cutting, processing, or moving forest products, or person on official duty, to enter or travel in any state, county, municipal or private forestlands, brushlands, marshland, fields or idle or abandoned lands in the area so affected except on public highways or well-defined private roads. During such period hunting and fishing seasons shall be closed, except hunting of migratory waterfowl and fishing as hereinafter provided, on all land and water within the Commonwealth or any geographical part thereof affected by proclamation. It shall further be unlawful during such periods for any person to hunt or fish except as hereinafter provided, smoke, burn leaves, grass, brush or debris of any type or to ignite or maintain any open fire nearer than 300 feet from any such forestlands, brushlands or fields containing inflammable vegetation or marshland adjoining such forestlands, brushlands, fields or idle or abandoned lands.

It shall not be unlawful to fish or hunt migratory waterfowl from a boat, or from a blind entirely surrounded by water and reached by a boat, or on nonforested islands at least 300 feet from the mainland shore and reached by a boat, when the boat embarks from and lands at established

boat landings, and at no other time touches shore nearer than 300 feet from any forestlands, brushlands, or fields containing inflammable vegetation or marshland adjoining such areas.

It shall be the duty of all authorized law-enforcement officers of the Commonwealth, counties and municipalities to enforce the provisions of this section.

If the season is not open, it may open beginning on the first legal hunting day after such proclamation is rescinded and remain open for a period not exceeding the prescribed length of the season.

The fire chief or other officer in charge shall display his fire fighter's or emergency medical services personnel's badge, or other proper means of identification. Notwithstanding any other provision of law, this authority shall extend to the activation of traffic control signals designed to facilitate the safe egress and ingress of emergency equipment at a fire/EMS station. Any person or persons refusing to obey the orders of the chief or his deputies or other officer in charge at that time shall be guilty of a Class 4 misdemeanor. The chief or other officer in charge shall have the power to make arrests for violation of the provisions of this section. The authority granted under the provisions of this section may not be exercised to inhibit or obstruct members of law-enforcement agencies or rescue squads from performing their normal duties when operating at such emergency incident, nor to conflict with or diminish the lawful authority, duties and responsibilities of forest wardens, including but not limited to the provisions of Chapter 11 of Title 10.1. Personnel from the news media, such as the press, radio and television, when gathering the news may enter at their own risk into the incident area only when the officer in charge has deemed the area safe and only into those areas of the incident that do not, in the opinion of the officer in charge, interfere with the fire/EMS department or fire fighters or emergency medical services personnel dealing with such emergencies, in which case the chief or other officer in charge may order such person from the scene of the emergency incident.

## **CERTIFIED PRESCRIBED BURN MANAGER LAWS**

---

### **§ 10.1-1150.1. Definitions.**

As used in this article unless the context requires a different meaning:

“Certified prescribed burn manager” means any person who has successfully completed a certification process established by the State Forester under § 10.1-1150.2.

“Prescribed burning” means the controlled application of fire or wildland fuels in either the natural or modified state, under specified environmental conditions, which allows a fire to be confined to a predetermined area and produces the fire behavior and fire characteristics necessary to attain planned fire treatment and ecological, silvicultural, and wildlife management objectives.

“Prescription” means a written statement defining the objectives to be attained by a prescribed burning and the conditions of temperature, humidity, wind direction and speed, fuel moisture, and soil moisture under which a fire will be allowed to burn. A prescription is generally expressed as an acceptable range of the prescription elements.

(1998, c. 156.)

### **§ 10.1-1150.2. State Forester to establish certification process.**

The State Forester shall develop and administer a certification process and training course for any individual who desires to become a certified prescribed burn manager. The training program shall include the following subjects: the legal aspects of prescribed burning, fire behavior, prescribed burning tactics, smoke management, environmental effects, plan preparation, and safety. A final examination on these subjects shall be given to all attendees. The State Forester may charge a reasonable fee to cover the costs of the course and the examination.

(1998, c. 156.)

### **§ 10.1-1150.3. Voluntary certification.**

To be certified as a prescribed burn manager, a person shall:

(1998, c. 156.)

### **§ 10.1-1150.4. Prescribed burn elements.**

Prescribed burning shall be performed in the following manner:

1. A prescription for the prescribed burn shall be prepared by a certified prescribed burn manager prior to the burn. The prescription shall include: (i) the landowner's name, address, and telephone number, and the telephone number of the certified prescribed burn manager who prepared the plan; (ii) a description of the area to be burned, a map of the area to be burned, the objectives of the prescribed burn, and the desired weather conditions or parameters; (iii) a summary of the methods to be used to start, control, and extinguish the prescribed burn; and (iv) a smoke management plan. The smoke management plan shall be based on guidelines presented in the Virginia Department of Forestry publication, "Voluntary Smoke Management Guidelines for Virginia," and the U.S. Forest Service's technical publication, "A Guide to Prescribed Fire in Southern Forests." A copy of the prescription shall be retained at the site throughout the period of the burning;
2. Prescribed burning shall be conducted under the direct supervision of a certified prescribed burn manager, who shall ensure that the prescribed burning is in accordance with the prescription; and

3. The nearest regional office of the Virginia Department of Forestry shall be notified prior to the burn.

(1998, c. 156.)

### **§ 10.1-1150.5. Liability.**

- A. Any prescribed burning conducted in compliance with the requirements of this article, state air pollution control laws, and any rules adopted by the Virginia Department of Forestry shall be in the public interest and shall not constitute a nuisance.
- B. Any landowner or his agent who conducts a prescribed burn in compliance with the requirements of this article, state air pollution control laws, and any rules adopted by the Virginia Department of Forestry shall not be liable for any damage or injury caused by or resulting from smoke.
- C. Subsections A and B of this section shall not apply whenever a nuisance or damage results from the negligent or improper conduct of the prescribed burn or when the prescribed burn elements described in § 10.1-1150.4 have not been complied with.

(1998, c. 156.)

### **§ 10.1-1150.6. Revocation of certification.**

If the actions of any certified prescribed burn manager or the prescriptions prepared by him violate any provision of this article, state air pollution control laws, or Virginia Department of Forestry rules or threaten public health and safety, his certification may be revoked by the State Forester.

As used in this article unless the context requires a different meaning:

“Diameter” means the distance through a tree at the point of average thickness as measured from outside of bark to outside of bark at a point on a trunk ten inches above the general ground level.

“Person” means any landowner, owner of timber, owner of timber rights, sawmill operator, sawmill owner, veneer wood operator, pulpwood contractor, or any person engaged in the business of severing timber from the stump.

“Tree” means any tree of a currently commercially valuable species which is six inches or more in diameter.

(1950, § 10-75; 1952, c. 417; 1956, c. 75; 1988, c. 891.)

## § 10.1-1163. Exemptions from article.

- A. This article shall not apply to any acre of land on which there are present at the time of final cutting of the timber 400 or more loblolly or white pine seedlings, singly or together, four feet or more in height.
- B. This article shall not apply to any person who clears or who procures another to clear his land for bona fide agricultural or improved pasture purposes or for the purpose of subdividing such land for sale for building sites. For the purpose of this article, evidence of intent of bona fide agricultural or improved pasture use shall require, as a minimum and within twelve months from

the date of completion of commercial cutting, that the land intended for such use be cleared of all trees, snags, brush, tree tops, and debris by piling and burning or otherwise disposing of same, or by enclosing the area with a well-constructed fence and planting grass seed thereon so as to make a bona fide improved pasture. In the case of clearing for building sites evidence of intent shall be the construction of dwellings or other bona fide structure in progress or completed within two years from the date of completion of commercial cutting.

- C. This article shall not apply to land which has been zoned for a more intensive land use than agricultural or forestal use.
- D. The provisions of this article shall not apply to any acre or acres of forestland for which a planting, cutting or management plan has been prepared, designed to provide conservation of natural resources, and which plan has been submitted to and approved by the State Forester previous to the cutting of any trees on the acre or acres concerned. If such plan has been submitted to the State Forester by registered or certified mail and he has not approved the plan, or disapproved it with a statement in writing of his reasons therefor, within a period of sixty days from the date of submission, the plan shall be deemed approved and shall be effective for the purposes of this section.
- E. The State Forester may grant exemptions from this article to individual landowners who wish to grow hardwoods on their property. The State Forester may place conditions on the exemption as he deems advisable for the conservation of natural resources.

(1950, §§ 10-81, 10-82, 10-83; 1950, p. 58; 1952, c. 412; 1956, c. 75; 1960, c. 244; 1988, c. 891; 1996, c. 285; 1997, c. 146.)

### **§ 10.1-1164. Pine trees to be left uncut for reseeded purposes.**

Every landowner who cuts, or any person who cuts or procures another to cut, or any person who owns the timber at the time of cutting and knowingly and willfully allows to be cut, for commercial purposes, timber from ten acres or more of land on which loblolly or white pine, singly or together, occur and constitute twenty-five percent or more of the live trees on each acre or acres, shall reserve and leave uncut and uninjured not less than eight cone-bearing loblolly or white pine trees fourteen inches or larger in diameter on each acre thus cut and upon each acre on which such pine trees occur singly or together, unless there is in effect for such land a planting, cutting or management plan as provided in subsection D of § 10.1-1163. Where eight cone-bearing loblolly or white pine trees fourteen inches or larger in diameter are not present on any particular acre, there shall be left uncut and uninjured for each such pine two cone-bearing pine trees of the largest diameter present less than fourteen inches in diameter. Such pine trees shall be left uncut for the purpose of reseeded the land and shall be healthy, windfirm, and of well-developed crowns, evidencing seed-bearing ability by the presence of cones in the crowns.

(1950, § 10-76; 1950, p. 58; 1952, c. 417; 1956, c. 75; 1960, c. 244; 1968, c. 73; 1988, c. 891; 1996, c. 285.)

### **§ 10.1-1165. When trees left for reseeding purposes may be cut.**

Pine trees which are left uncut for purposes of reseeding shall be the property of the landowner but shall not be cut until at least three years have elapsed after the cutting of the timber on such lands.

(1950, § 10-77; 1956, c. 75; 1960, c. 244; 1972, c. 163; 1988, c. 891.)

### **§ 10.1-1166. Posting or publication of notices.**

The State Forester shall distribute notices calling attention to the provisions of this article in conspicuous places in all counties and cities where such pine timber grows in appreciable quantities, and may publish notices in newspapers of general circulation in such counties and cities.

(1950, § 10-78; 1956, c. 75; 1988, c. 891.)

### **§ 10.1-1167. Penalty for violation of article.**

Any person violating any provision of this article shall be guilty of a misdemeanor and upon conviction shall be fined thirty dollars for each seed tree cut from the land in violation of this article. The total amount of fine for any one acre shall not exceed \$240.

(1950, § 10-79; 1950, p. 58; 1956, c. 75; 1972, c. 163; 1988, c. 891; 1996, c. 285.)

**§ 10.1-1168. Procedure to ensure proper planting after conviction; cash deposit or bond; inspection or planting by State Forester.**

When any person is convicted of failing to leave seed trees uncut as required by § 10.1-1164, the judge shall require the person so convicted to immediately post with the court a cash deposit or a bond of a reputable surety company in favor of the State Forester in the amount of thirty dollars for each seed tree cut in violation of this article. The total amount of the cash deposit or bond for any one acre shall not exceed \$240.

The judge shall cause the cash deposit or surety bond to be delivered to the State Forester, who shall hold the cash or surety bond in a special account until it is used or released as hereinafter provided. The purpose of the cash or surety bond is to ensure that the general cutover area on which seed trees have been cut in violation of this article shall be planted with tree seedlings of the same species as the trees cut in violation of this article in a manner hereinafter specified.

For each acre on which trees have been cut in violation of this article, a number up to 600, as determined by the State Forester, of tree seedlings shall be planted on the general cutover area on which seed trees were cut in violation. Each seedling shall be planted in a separate hole at least six feet from any other planted seedling. Seedlings shall be planted at least six feet from any sapling or tree which may shade the planted seedling from direct sunlight. If stems of noncommercial species prevent the planting of tree seedlings in the manner herein described on any area in violation, a sufficient number of such stems shall be

cut, girdled or poisoned to permit the required number of seedlings to be planted. The seedlings shall be planted during the period of the year when forest tree seedlings are customarily planted in the section of the Commonwealth in which the cutover area is located. After receipt of the tree seedlings from the nursery, care shall be taken to keep the seedling roots in a moist, uninjured condition at all times prior to actual planting, and the seedlings shall be planted in a careful, workmanlike manner. Planted seedlings shall be of the same tree species as the seed trees cut in violation, or if two or more seed tree species are cut in violation, the species of the planted seedlings shall be in proportion to the seed trees cut in violation. The above specified manner of planting and tree species planted shall be observed whether the planting is done by the person found in violation of this article or by the State Forester.

A person convicted of violating this article may plant tree seedlings on the general cutover area of the species and in the manner specified herein within one year following the date of conviction. Upon completion of the planting, the person shall immediately notify the State Forester in writing that the area has been planted. The State Forester or his representative shall then inspect the area and if he finds the planting to be done in accordance with the specifications set forth, he shall notify the person in writing and return the cash deposit or surety bond to the person depositing it.

If, upon inspection, the State Forester finds that the general cutover area or any part thereof has not been planted in the manner and during the period of year specified, or that the area has not been planted previous

to one year following the date of conviction, the State Forester shall then plant the area during the next planting season, and do such forest cultural work as he deems necessary by reason of the delayed planting, keeping a careful and accurate account of all costs incurred, including a reasonable administrative cost. Following completion of the planting the State Forester shall prepare a certified statement showing the cost of planting, which shall be paid from the cash deposit, or if a surety bond has been deposited the State Forester shall collect the cost of planting from the bonding company. The State Forester shall then submit to the person making the deposit a certified statement of the cost of planting, together with any cash remaining after paying the cost of planting and forest cultural work.

The State Forester shall not be required to expend for planting and forest cultural operations more than thirty dollars per seed tree cut in violation of this article.

(1956, c. 75, § 10-79.1; 1960, c. 269; 1972, c. 163; 1988, c. 891; 1996, c. 285.)

### **§ 10.1-1169. Liability for failure to carry out planting, cutting or management plan; reforestation of area by State Forester.**

- A. Any person failing to carry out, fulfill or complete any term or provision of any planting, cutting, or management plan submitted to and approved by the State Forester as provided in subsection D of § 10.1-1163 shall be liable to the Commonwealth in a civil suit brought by the Attorney General in the name of the Commonwealth in any court of competent jurisdiction for, at least \$240 per acre for each acre or part of an acre subject to such plan and legal fees incurred by

the Commonwealth. All moneys collected pursuant to this subsection, exclusive of court costs and legal fees incurred by the Commonwealth, shall be delivered to the State Forester, who shall deposit the money in the Forestry Operations Fund in the state treasury until it is used or released as hereinafter provided. Such deposit may only be spent to ensure that the area for which the planting, cutting or management plan was approved by the State Forester shall be reforested in the manner hereinafter specified.

- B. During the year following the date of payment of any judgment rendered in favor of the Commonwealth pursuant to subsection A of this section and at the season when forest tree seedlings are customarily planted in the section of the Commonwealth where the planting, cutting or management plan area is located, the State Forester shall plant, or cause to be planted, on the area, as many forest tree seedlings as he deems necessary to reforest the area adequately. The tree species used in reforesting the area may be the same as the pine species cut from the area, or the species may be a mixture suitable for reforesting the area, in the judgment of the State Forester.
- C. If, upon inspection, the State Forester finds that the area for which the forest management plan was approved is covered with a growth of woody plants, sprouts, brush and briars of such a density as to retard or preclude the establishment and development of the planted tree seedlings, he may perform or cause to be performed forest cultural measures, such as bulldozing, disking, poisoning by spray, and similar measures,

necessary to make the area suitable for the planting, establishment and development of tree seedlings.

- D. The State Forester shall keep an accurate account of all costs involved, including reasonable administrative costs, and shall transfer such costs from the Forestry Operations Fund into the Department operating account for protection and development of the forest resources of the Commonwealth. If, after having complied with the reforestation provisions of this section, any money remains in the special account to the credit of any particular case, the unexpended balance shall be paid to the person against whom a judgment was rendered pursuant to the provisions of subsection A.
- E. The expenditure by the State Forester for reforestation on any individual area as herein provided shall not exceed the amount of the judgment paid for the reforestation of such area.

(1964, c. 235, § 10-83.01; 1972, c. 163; 1986, c. 567; 1988, c. 891; 1996, c. 285.)

# TIMBER HARVESTING LAWS

---

## **§ 55.1-2835. Damages recoverable for timber cutting.**

If any person, firm, or corporation encroaches and cuts timber, except when acting prudently and under bona fide claim of right, the owner of such timber shall, in addition to all other remedies afforded by law, have the benefit of a right to, and a summary remedy for recovery of, damages in an amount as specified in this article and recovered as provided for in this article.

If the trespass is proven, the defendant shall have the burden of proving that he acted prudently and under a bona fide claim of right.

(1950, § 8-906; 1952, c. 658; 1968, c. 251; 1977, c. 624, § 55-331; 1993, c. 580; 2004, cc. 604, 615; 2019, c. 712.)

## **§ 55.1-2836. Procedure for determination of damage.**

- A. The owner of the land on which a trespass as described in § 55.1-2835 was committed shall have the right, within 90 days after the discovery of such trespass and the identity of the trespasser, to notify the trespasser and to appoint an experienced timber estimator to determine the amount of damages. For the purposes of determining damages, the value of the timber cut shall be calculated by first determining the value of the timber on the stump. Within 30 days after receiving notice of the alleged trespass and of the appointment of such estimator, the alleged trespasser, if he does not deny the fact of trespass, shall appoint an experienced timber estimator to participate with the one already

so appointed in the estimation of damages. If the two estimators cannot agree, they shall select a third person, experienced and disinterested, who shall make a decision that shall be final and conclusive and not subject to appeal. The estimation of damages and the rendition of statement must be effected within 30 days from the receipt of notice of appointment, by the trespasser, of an estimator.

If the alleged trespasser fails to appoint an estimator within the prescribed time, or to notify within such time that the allegation of the fact of trespass is disputed, the estimator appointed by the injured party may make an estimate, and collection or recovery may be had accordingly.

- B. Any person who (i) severs or removes any timber from the land of another without legal right or permission or (ii) authorizes or directs the severing or removal of timber or trees from the land of another without legal right or permission shall be liable to pay to the rightful owner of the timber three times the value of the timber on the stump and shall pay to the rightful owner of the property the reforestation costs incurred not to exceed \$450 per acre, the costs of ascertaining the value of the timber, any directly associated legal costs, and reasonable attorney fees incurred by the owner of the timber as a result of the trespass.

(1950, § 8-907; 1977, c. 624, § 55-332; 1987, c. 105; 2004, cc. 604, 615; 2016, cc. 245, 562; 2019, cc. 348, 353, 712.)

## **§ 55.1-2837. When person damaged may proceed in court.**

If the amount specified in subsection B of § 55.1-2836 is not paid within 30 days after rendition of statement, the person upon whose land the trespass occurred may proceed for judgment in the amount of payment as specified in § 55.1-2836.

If upon receiving notice of the alleged trespass and of the appointment of an estimator, the person so receiving notice does not admit the fact of trespass, he may decline to appoint an estimator and notify the other party to such effect, together with his reason for refusing to appoint an estimator, and in such case the aggrieved party may proceed in the appropriate court.

(1950, § 8-909; 1968, c. 251; 1977, c. 624, § 55-334; 2004, cc. 604, 615; 2019, c. 712.)

## **§ 55.1-2838. Larceny of timber; penalty.**

- A. Any person who knowingly and willfully takes, steals, and removes from the lands of another any timber growing, standing, or lying on the lands is guilty of larceny. Any person so convicted shall be ordered to pay restitution calculated pursuant to § 55.1-2836.
- B. In a criminal prosecution pursuant to subsection A, it shall be prima facie evidence of the intent to steal the timber if the timber was harvested or removed from property marked with readily visible paint marks not more than 100 feet apart on trees or posts along the property line, where the paint marks were vertical lines at least two inches in width and at least eight inches in length and the center of the mark was not less than three feet nor more than six feet from the ground or

normal water surface.

(2004, cc. 604, 615, § 55-334.1; 2019, c. 712.)

**§ 55.1-2839. Larceny of timber; failure to remit payment to owner; penalty.**

- A. Any person who buys timber directly from the owner of the land on which the timber is grown shall make payment in full to the owner by the date specified in the written timber sales agreement or, if there is no such written agreement, within 60 days from the date that the buyer removes the timber from the property.
- B. Any person who, without the consent of the seller, fails to make payment in full within the time period established by subsection A is guilty of timber theft, which is punishable as a Class 1 misdemeanor, and shall be ordered to pay restitution equal to three times the value of the timber established in the timber sale agreement, whether written or oral, in addition to any penalties imposed by the court.
- C. No person shall be prosecuted under this section if he remits payment in full within the time period established by subsection A or D to a person he believes in good faith to be the rightful owner of the timber.
- D. An owner of land who does not receive payment in full within the time period established in subsection A may notify the timber buyer in writing of his demand for payment at such buyer's last known address by certified mail or by personal delivery. The timber buyer's failure to make payment in full within 10 days after such mailing or personal delivery shall constitute prima facie evidence of such buyer's intent to violate the provisions of subsection A. However, no person

who remits payment in full within 10 days after such demand for payment shall be prosecuted for violating the provisions of subsection A, notwithstanding his failure to remit payment in full within the time period established in subsection A.

(2019, cc. 348, 353, § 55-334.2.)

### **§ 55.1-2840. Load tickets required for certain sales of timber; penalty.**

- A. Whenever a timber buyer acquires timber and the load is sold by weight, cord, or measure of board feet, such buyer shall, upon request of the owner of the land from which the timber is removed, furnish such landowner within 30 days of the request or 30 days from the date that the timber is removed, whichever is later, a true and accurate accounting of each load removed from the property related to the sale.

Such accounting shall include all supporting documentation, such as load tickets or settlement statements provided to the timber buyer by the facility receiving, weighing, scaling, or measuring the trees, timber, or wood, and shall contain, at a minimum, (i) the name of the facility receiving, weighing, scaling, or measuring the trees, timber, or wood; (ii) the date the trees, timber, or wood was received at the facility; (iii) the name of the producer or logging company; (iv) the type of wood; (v) the type of product; (vi) the weight or scale information, including the total volume if the load is measured by scale, or the gross and tare, or net weights, if the load is measured by weight; and (vii) the weight, scale, or amount of wood deducted and the deduction classification.

- B. No load ticket or settlement report shall be required to include price or market value information unless the timber sales agreement, whether written or oral, stipulates that the landowner is to be paid based on a share of the value of the timber removed.
- C. Any person who fails to provide the information required by this section, or who knowingly provides false information, is guilty of a Class 3 misdemeanor.  
(2019, cc. 348, 353, § 55-334.3.)

### **§ 55.1-2841. Effect of article.**

Nothing in this article shall have the effect of precluding any compromise or agreed settlement that the parties in dispute may effect as to the civil remedies provided by this article, nor of barring any other remedy provided for by law.

(1950, § 8-910; 1977, c. 624, § 55-335; 2019, c. 712.)

# RIPARIAN FOREST BUFFER TAX CREDIT LAW

---

## **§ 58.1-339.10. Riparian forest buffer protection for waterways tax credit.**

- A. For all taxable years beginning on or after January 1, 2000, any individual who owns land abutting a waterway on which timber is harvested, and who forbears harvesting timber on certain portions of the land near the waterway, shall be allowed a credit against the tax imposed by § 58.1-320 as set forth in this section. For purposes of this section, "waterway" means any perennial or intermittent stream of water depicted on the then most current United States Geological Survey topographical map.
- B. The State Forester shall develop guidelines setting forth the general requirements of qualifying for the credit, including the land for which credit is eligible. To qualify for the credit, the individual must comply with an individualized Forest Stewardship Plan to be certified by the State Forester. In no event shall the distance from such waterway to the far end of the timber buffer, on which the tax credit is based, be less than thirty-five feet or more than three hundred feet. The minimum duration for the buffer shall be fifteen years. The State Forester shall check each certified buffer annually to verify its continued compliance with the taxpayer's Forest Stewardship Plan. If the State Forester discovers that the timber in that portion of the land retained as a buffer has been harvested prior to the end of the required term, written notification of such violation shall be delivered to the taxpayer by the State Forester.

- C. The tax credit shall be an amount equal to twenty-five percent of the value of timber in that portion of the land retained as a buffer. The amount of such credit shall not exceed \$17,500 or the total amount of the tax imposed by this chapter, whichever is less, in the year that the timber outside the buffer was harvested. If the amount of the credit exceeds the taxpayer's liability for such taxable year, the excess may be carried over for credit against income taxes in the next five taxable years until the total amount of the tax credit has been taken. For purposes of this section, the amount of any credit attributable to qualified buffer protection by a partnership or electing small business corporation (S Corporation) shall be allocated to the individual partners or shareholders in proportion to their ownership or interest in the partnership or S Corporation. The land which is the subject of a tax credit under this section cannot again be the subject of a tax credit under this section for at least fifteen years. The State Forester shall check each certified buffer annually to verify its continued compliance with the taxpayer's Forest Stewardship Plan. If the State Forester discovers that the timber in that portion of the land retained as a buffer has been harvested prior to the end of the required term, written notification of such noncompliance shall be delivered to the taxpayer by the State Forester.
- D. To claim the credit authorized under this section, the taxpayer shall apply to the State Forester, who shall determine the amount of credit, using the assessed value of the timber in that portion of land retained as a buffer, and issue a certificate thereof to the taxpayer. The taxpayer shall attach the certificate to the Virginia tax return on which the credit is claimed. In the event

the timber in that portion of land retained as a buffer is harvested by the taxpayer or any other person prior to the end of the term originally established in the taxpayer's individualized Forest Stewardship Plan, the taxpayer shall repay the tax credit claimed. Within sixty days after receiving written notification from the State Forester that the taxpayer's plan no longer qualifies for the credit, repayment shall be made to the Department of Taxation. If repayment is not made within the sixty-day period, the State Forester shall notify the locality's Commonwealth Attorney for assistance in collecting the funds from the taxpayer.

---

### **§ 10.1-1181.1. Definitions.**

As used in this article unless the context requires a different meaning:

“Operator” means any person that operates or has operated or exercises or has exercised control over any silvicultural activity.

“Owner” means any person that (i) owns or leases land on which silvicultural activity occurs or has occurred or (ii) owns timber on land on which silvicultural activity occurs or has occurred.

“Pollution” means such alteration of the physical, chemical or biological properties of any state waters resulting from sediment deposition as will or is likely to create a nuisance or render such waters (i) harmful or detrimental or injurious to the public health, safety or welfare, or to the health of animals, fish or aquatic life; (ii) unsuitable with reasonable treatment for use as present or possible future sources of public water supply; or (iii) unsuitable for recreational, commercial, industrial, agricultural, or other reasonable uses.

“Silvicultural activity” means any forest management activity, including but not limited to the harvesting of timber, the construction of roads and trails for forest management purposes, and the preparation of property for reforestation.

“Special order” means a special order or emergency special order issued under subsection B or C of § 10.1-1181.2. (1993, c. 948; 1998, c. 578.)

## **§ 10.1-1181.2. Conduct of silvicultural activities; issuance of special orders.**

- A. If the State Forester believes that an owner or operator has conducted or is conducting or has allowed or is allowing the conduct of any silvicultural activity in a manner that is causing or is likely to cause pollution, he may notify the owner or operator regarding the activity that is causing or likely to cause pollution and recommend (i) corrective measures and (ii) a

reasonable time period to prevent, mitigate, or eliminate the pollution. If the owner or operator fails to take action to prevent, mitigate, or eliminate the pollution, the State Forester shall issue a special order pursuant to subsection B or C. Failure of the State Forester to notify an owner or operator of such corrective measures shall not impair the State Forester's authority to issue special orders pursuant to subsection B or C.

- B. The State Forester shall have the authority to issue special orders to any owner or operator who has conducted or is conducting, or has allowed or is allowing to be conducted, any silvicultural activity in a manner that is causing or is likely to cause pollution, to cease immediately all or part of the silvicultural activities on the site, and to implement specified corrective measures within a stated period of time. Such special orders are to be issued only after the owner or operator has been given the opportunity for a hearing with reasonable notice to the owner or operator, or both, of the time, place and purpose thereof, and they shall become effective not less than five days after service as provided in subsection D.
- C. If the State Forester finds that any owner or operator is conducting any silvicultural activity in a manner that is causing or is likely to cause an alteration of the physical, chemical or biological properties of any state waters resulting from sediment deposition presenting an imminent and substantial danger to (i) the public health, safety or welfare, or the health of animals, fish or aquatic life; (ii) a public water supply; or (iii) recreational, commercial, industrial, agricultural or other reasonable uses, the State Forester may issue,

without advance notice or hearing, an emergency order directing the owner or operator, or both, to cease immediately all or part of the silvicultural activities on the site, and to implement specified corrective measures within a stated period of time. The commencement of proceedings by the State Forester for the issuance of a special order pursuant to subsection B shall not impair the State Forester's authority to issue an emergency special order pursuant to this subsection. The State Forester shall provide an opportunity for a hearing, after reasonable notice as to the time and place thereof to the owner or operator, to affirm, modify, amend or cancel such emergency special order.

- D. The owner or operator to whom such special order is directed shall be notified by certified mail, return receipt requested, sent to the last known address of the owner, or operator, or by personal delivery by an agent of the State Forester, and the time limits specified shall be counted from the date of receipt.
- E. The State Forester shall not issue a special order to any owner or operator who has incorporated generally acceptable water quality protection techniques in the operation of silvicultural activities, which techniques have failed to prevent pollution, if the State Forester determines that the pollution is the direct result of unusual weather events that could not have been reasonably anticipated.
- F. Any hearing required under this section shall be conducted in accordance with § 2.2-4020 unless the parties consent to informal proceedings.

- G. The State Forester shall not issue a notice under subsection A or a special order or emergency special order under subsection B or C more than one year after the silvicultural activity has occurred on the property. Any such notice, special order, or emergency special order shall remain in effect until the State Forester determines that corrective measures specified therein have been implemented.
- H. Prior to completion but not later than three working days after the commencement of an operation, the operator shall notify the State Forester of the commercial harvesting of timber. For the purpose of this section, commercial harvesting of timber means the harvesting of trees for the primary purpose of transporting to another site for additional manufacturing. The notification may be verbal or written and shall (i) specify the location and the actual or anticipated date of the activity and (ii) be made in a manner prescribed by the State Forester. If an operator fails to comply with the provisions of this subsection, the State Forester may assess a civil penalty of \$250 for the initial violation and not more than \$1,000 for any subsequent violation within a 24-month period by the operator. Such civil penalties shall be paid into the state treasury and credited to the Virginia Forest Water Quality Fund pursuant to § 10.1-1181.7.

(1993, c. 948; 1998, c. 578; 2002, cc. 293, 304, 376; 2003, c. 812; 2004, c. 228.)

### **§ 10.1-1181.3. Civil penalties.**

- A. Any owner or operator who violates, or fails or refuses to obey any special order may be assessed a civil penalty by the State Forester. Such penalty shall not exceed

\$5,000 for each violation. Each day of a continuing violation may be deemed a separate violation for purposes of assessing penalties. In determining the amount of the penalty, consideration shall be given to the owner's or operator's history of noncompliance; the seriousness of the violation, including any irreparable harm to the environment and any hazard to the health or safety of the public; whether the owner or operator was negligent; and the demonstrated good faith of the owner or operator in reporting and remedying the pollution.

- B. A civil penalty may be assessed by the State Forester only after the owner or operator has been given an opportunity for a hearing. Any hearing required under this section shall be conducted in accordance with § 2.2-4020, unless the parties consent to informal proceedings. If the owner or operator fails to avail himself of the opportunity for a formal hearing, a civil penalty shall be assessed by the State Forester after the State Forester finds that a violation of a special order has occurred and the amount of the civil penalty warranted, and issues an order requiring that the civil penalty be paid.
- C. If a person who is required under this article to pay a civil penalty fails to do so, the State Forester may transmit a true copy of the final order assessing such penalty to the clerk of circuit court of any county or city wherein it is ascertained that the person owing the penalty has any estate; and the clerk to whom such copy is sent shall record it, as a judgment is required by law to be recorded, and shall index the same in the name of the Commonwealth as well as of the person

owing the penalty, and thereupon there shall be a lien in favor of the Commonwealth on the property of the owner or operator within such county or city in the amount of the penalty. The State Forester may collect civil penalties that are owed in the same manner as provided by law in respect to judgment of a court of record. All civil penalties shall be paid into the state treasury and deposited by the State Treasurer into the Virginia Forest Water Quality Fund pursuant to § 10.1-1181.7.

- D. With the consent of any owner or operator who has violated or failed, neglected or refused to obey any special order of the State Forester issued pursuant to subsection B or C of § 10.1-1181.2, the State Forester may provide, in an order issued by the State Forester against such owner or operator, for the payment of civil charges for violations in specific sums, not to exceed the limit specified in subsection A of this section. Such civil charges shall be in lieu of any civil penalty that could be imposed under subsection A of this section, and shall be placed in the Virginia Forest Water Quality Fund pursuant to § 10.1-1181.7.

(1993, c. 948; 2004, c. 228.)

#### **§ 10.1-1181.4. Final decisions; costs of hearing examiner.**

- A. Any final order or decision rendered pursuant to this article shall be reduced to writing and shall contain the explicit findings of fact and conclusions of law upon which the decision is based. Certified copies of the written decision shall be delivered or mailed by certified mail to the parties affected by the decision.

- B. If any final agency case decision is rendered following a hearing conducted in accordance with § 2.2-4020 presided over by a hearing officer, the officer shall be paid by the State Forester if the owner or operator is the prevailing party, or by the owner or operator if the State Forester is the prevailing party. The findings of the hearing officer shall specify which party prevailed in the hearing.

(1993, c. 948.)

### **§ 10.1-1181.5. Judicial review.**

Any person aggrieved by a final order or decision under this article shall be entitled to judicial review thereof in accordance with the Administrative Process Act (§ 2.2-4000 et seq.). The commencement of a proceeding for judicial review under this section shall not, unless specifically ordered by the court, operate as a stay of the order or decision of the State Forester.

(1993, c. 948.)

### **§ 10.1-1181.6. Enforcement by injunction.**

Any owner or operator violating or failing, neglecting or refusing to obey any special order issued by the State Forester may be compelled in a proceeding instituted in any appropriate circuit court by the State Forester to obey same and to comply therewith by injunction, mandamus or other appropriate remedy, without the necessity of showing that an adequate remedy at law does not exist.

(1993, c. 948.)

**§ 10.1-1181.7. Virginia Forest Water Quality Fund established; administration and disbursements.**

- A. There is hereby established a special, nonreverting fund in the state treasury to be known as the Virginia Forest Water Quality Fund, hereafter referred to as the Fund, to be used for education efforts, promoting the implementation of proper silvicultural activities, research, and monitoring the effectiveness of practices to prevent erosion and sedimentation. The Fund shall be a nonlapsing fund consisting of moneys received and credited to the Fund by the State Treasurer for civil penalties and civil charges assessed pursuant to this article. Interest earned on the Fund shall be credited to the Fund. The Fund shall be established on the books of the State Comptroller. Any money remaining in the Fund at the end of the biennium shall not revert to the general fund but shall remain in the Fund.
- B. Disbursement of moneys from the Fund shall be made by the State Comptroller at the written request of the State Forester. Disbursements from the Fund may be made for the purposes set forth in subsection A of this section, including, but not limited to, personnel, administrative, and equipment costs and expenses directly incurred by the Department in connection with such purposes.
